

DaVinci Roofscapes Recycle Program

At DaVinci Roofscapes we manufacture tiles with ThermoPlastic Olefin (TPO), organic fire retardants and inorganic pigments that are safe for the environment. Any materials that fail to meet finished specs are re-purposed as starter tiles. All DaVinci tiles are 100% recyclable.

DaVinci tiles must be returned to the manufacturing plant in Kansas City, KS, to be recycled. Two programs are being offered to recycle DaVinci tiles:

Program #1: Waste from a job site.

- Scraps and cuttings from a project may be returned to our plant in Kansas City, KS; the cuttings can be recycled keeping waste from the landfill. Only tiles or scraps clean of nails or other roofing accessories will be accepted.
- Job sites within 500 miles of Kansas City, KS will be returned free of charge. All other locations must schedule freight to DaVinci in order to recycle.
 - How to return tile scraps:
 - Prior to the job shipping inform your Inside Sales Representative that you would like to participate in the recycling program.
 - DaVinci will send boxes with the order that should be used to return tiles and scraps clean of nails and other debris.
 - If job site is within 500 miles of Kansas City, KS DaVinci will send prepaid FedEx Ground labels to return scraps (limit 4 boxes). If job site lies outside of the 500 mile radius you are responsible for scheduling shipment to DaVinci plant.

Program #2: After the life expectancy (50 years) of the roof DaVinci tiles may be returned to the manufacturing plant.

- Tiles must be clean of nails or other roofing accessories to be accepted.
- Job sites within 500 miles of Kansas City, KS will be returned free of charge. All other locations must schedule freight to DaVinci in order to recycle.
 - How to return expired tiles:
 - Contact DaVinci Roofscapes, 800-328-4624, to schedule return.
