A legacy of beauty
From the mountains to the coasts… Wherever you call home, a DaVinci roof lives up to your vision of beauty and stands up to the challenges of your weather.

DaVinci has been the leader in composite roofing for nearly two decades. Our commitment to creating durable, beautiful roofing tiles is unparalleled. You won’t find a more realistic or better-performing roofing product anywhere.

With DaVinci, you can retain all the character your home was intended to have without worrying about time-consuming and costly maintenance. Whether you’re replacing an existing roof or looking for the crowning touch on a new construction project… just leave it to DaVinci.
what's behind the beauty is
Genius

DaVinci tiles are made of pure virgin resins fortified with state-of-the-art UV stabilizers. The color you pick is the color you keep.

DaVinci products are modeled from actual slate and hand-split shake for natural, non-repeating beauty.

Engineered to look better, longer.

DaVinci roofing tiles are proudly manufactured in Lenexa, Kansas.

VS. NATURAL SHAKE

Unfortunately, the long-hailed performance attributes of cedar shake have disappeared along with old-growth trees. Rotting, cracking and curling is inevitable. In most climates, cedar shake has a lifespan comparable to (or even less than) asphalt. DaVinci composite tiles give you the look you love with superior durability for a lifetime.

VS. NATURAL SLATE

Like a rock? Slate tiles are not immune to the ravages of time...or hail. Its tiny fissures make natural slate susceptible to damage caused by freeze and thaw cycles. DaVinci slate products defy the elements for decades of enduring and worry-free beauty.

Every region of North America presents challenges to the exterior of your home. Mother Nature’s fury is universal.

With the damaging effects of sun, hail, gale-force winds and freeze and thaw cycles, roofing materials are at odds with the weather year-round. DaVinci’s unique composite construction outperforms both natural slate and cedar shake with a Class A Fire Rating, Class 4 Impact Rating and a 110 mph Wind Rating. But the real genius of a DaVinci roof lies in its ability to provide lasting beauty and a constant source of pride.

DaVinci roof tiles are constructed of a composite material made of pure virgin resins, UV and thermal stabilizers as well as a highly-specialized fire retardant. The result is a state-of-the-art tile that gives us the greatest degree of color control and consistency in the manufacturing process and an end product that endures beautifully in any climate.

YOUR HOME WAS MADE FOR CEDAR OR SLATE

DaVinci was made for your home

THIS IS FOR KEEPS

It’s easy to fall in love with the look of natural slate or cedar shake. Their beauty is at the heart of many architectural styles, old and new. DaVinci gives you the look you want and so much more: resistance to impact, splitting, and cracking as well as a Class A fire rating and the peace of mind that comes with a Lifetime Warranty.

DaVinci offers the beauty of natural slate and cedar shake in three different tile options, giving you the ability to meet your aesthetic vision as well as respect your budget.

MULTI-WIDTH

Our most authentic-looking and versatile option, DaVinci’s Multi-Width tiles set the high mark for luxury. Laying tiles of multiple widths in a straight or staggered pattern creates the most natural, non-repeating appearance possible.

MULTI-WIDTH SHAKE ............. Page 22

SINGLE-WIDTH

Single-width tiles add a budget-friendly touch of tradition to your home in either a straight or staggered pattern. The uniform tile size and impact-resistant composite construction work to reduce waste and speed up installation.

DaVinci SLATE

Historically, attaining the luxurious look of natural slate hasn’t been easy. The cost, the weight and the required army of skilled tradesmen made the installation process complicated and costly. Thanks to the genius of DaVinci, the look of slate is more viable than ever.

MULTI-WIDTH
Multi-width tiles provide the greatest degree of authenticity and flexibility.

SINGLE-WIDTH
Single-width tiles reduce material and speed up installation time without compromising style.

BELLAFORTÉ
The look of slate at a fraction of the cost and weight.

Way Beyond Curb Appeal

Mill Hall, Pennsylvania

Mill Hall enjoys an annual temperature swing that ranges from single digits to triple digits.
A perfect match.

The picture of elegance. DaVinci’s Multi-Width Slate delivers the highest levels of beauty without the typical challenges of a natural slate roof. Our tiles are engineered to be lighter, to resist impact and to maintain their color longer. It’s hard to beat Mother Nature, but DaVinci has done it.
It feels right.

Some homes were created with the promise of a slate roof in mind. DaVinci’s Single-Width Slate delivers on that promise with its astonishing versatility. Our single-width tile construction streamlines installation but still enables the flexibility of straight or staggered appearances.
The look will amaze you. The price might surprise you.

Designed to reduce material costs, Bellaforté puts the look of slate within reach, and with it the premium aesthetics and performance that asphalt shingles can only dream about.

With DaVinci Bellaforté, the look of slate may be more attainable than you think.
